### **John Jay College of Criminal Justice (CUNY), New York, NY**

*Master of Science in Digital Forensics and Cybersecurity*  
GPA: 3.34

May 2024

### **John Jay College of Criminal Justice (CUNY), New York, NY**

*Bachelor of Science in Computer Science and Information Security*  
GPA: 3.34 | Dean's List: Fall 2020, Spring 2022

May 2022

## CERTIFICATIONS

- CompTIA Cybersecurity Analyst (CySA+)

February 2025

- Splunk Core Certification

February 2025

- Certificate of Achievement in Codepath's Cybersecurity Course

April 2022

## EXPERIENCE

### **New York City Department of Education, New York, NY - Field Technician / Hardware Specialist**

March 2025 - Present

- Deploy and maintain PCs, Laptops, and Printers across multiple school sites
- Resolve at least 40 weekly network and device issues across different NYC public schools and DOE offices while collaborating with Field Technicians to have the hardware ready to use across 500 students and 20 staff members in at most 15 different public schools every week
- Implement device management protocols, ensuring compliance with NYC DOE cybersecurity standards.

### **Commonpoint Queens, New York, NY - Child and Youth Worker**

July 2023 - June 2024

- Supervised academic enrichment programs for 15+ middle school students at JHS 216 George J. Ryan on weekdays
- Provided technical support for educational technology, including Smartboards and student devices
- Maintained a secure learning environment following organizational safety and data protection protocols
- Collaborated with faculty to integrate technology solutions that enhanced student engagement through engaging activities

### **Department of Justice, New York, NY - Intern**

June 2022 - August 2022

- Generated more than 5 detailed forensic reports using Cellebrite to ensure strict chain of custody protocols supporting national cybercrime investigations through analyzing evidence from at least 15 different smartphone devices to support federal investigations
- Developed proficiency in data extraction, analysis, and reporting procedures through Microsoft Excel

### **MacguyverTech, Glenolden, PA - Project Intern**

May 2021 - August 2021

- Managed content updates and security patches for 3 WordPress websites serving at least 5,000 monthly users
- Developed project tracking systems using Excel to monitor progress across 8 different concurrent initiatives
- Implemented basic security measures, including regular backups and access control reviews

### **Criminal Justice Department, John Jay College, New York, NY - Computer Lab Assistant (Academic Year)**

March 2019 - May 2021

- Maintained network security and the infrastructure of the computer lab serving around 100 John Jay Students and Faculty daily
- Provided technical support for forensics software and security tools used in coursework, resulting in a better understanding for John Jay Students and Faculty
- Managed inventory and deployment of technology resources
- Assisted faculty and students with computer lab exercises and digital literacy techniques
- Ensured compliance with academic IT security policies and cloud data handling procedures

### **Dunkin Donuts, Jamaica, NY - Crew Member**

July 2018 - February 2020

- Processed financial transactions and maintained POS system security protocols
- Recognized as "Best Crew Member" (August 2018) for exceptional customer service and reliability

## TECHNICAL SKILLS
